Stood Death Off.
E. B. Munday, a lawyer of Henricetta, Tex., once fooled a nervedigger. He said: "My brother was very low with malarial fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was widely cured. I am sure Electric Bitters saved his life." This remedy cures the blood, kills disease germs and purifies the blood, aids digestion, regulates the liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints, gives perfect health. Only 50c at T. E. Paul's drugstore.

Outopathy.

Dr. A. C. Foster, a graduate of the Southern School of Outopathy, is now practicing in Columbia for the practice of his profession. Outopathy is comparatively new in this part of the State, but having been practiced in other parts of the United States for more than twenty years, I judge most every one has heard of its wonderful success with cases that heretofore have been incurable by other systems of healing. Outopathy treats most all forms of chronic cases known to be curable, and some that were thought to be incurable before the days of Outopathy. It has attained a most enviable reputation in the treatment of fevers, most especially typhoid. Outopathy bears no relation whatever to Christian Science, Magnetic healing or faith cure, but is scientific, being based upon thorough knowledge of the principles of anatomy and physiology.

Those who are suffering with diseases from which they can get no relief by the use of drugs, would do well to investigate the possibilities of Outopathy in the cure of disease.

Consultation and examination can be had free by calling upon.

Hogs and Corn.

The shortage of the corn crop in the drought section is likely to interfere with the plans and profits of the hog raiser. While in the past years we have been long on corn and short on hogs, this year we are likely to be short on corn and long on hogs. What must be done under the circumstances must be decided by each individual in the light of the conditions existing on his own farm. We urge farmers not to become panicky, nor to sacrifice hogs that they are sure that this sacrifice is necessary. Hogs are high now and the drought, by decreasing the amount of feed, and in many sections forcing immediate hogs on the market, will maintain high prices for a year or more.

It is a fact that buyers who are willing to contract hogs for January 1 at 6 cents a pound at the time of the price that hogs will bring. If the great strike now in progress should continue for several months, so that laboring men will not have the means to buy pork to eat, it will have the effect of decreasing the price, but in view of the high prices that have prevailed for the past year it will require some very serious disaster in the commercial world to reduce the demand and the price.

In the drought-stricken sections wheat and rye at current prices are likely to be about as cheap as feed for corn for hogs up to within the last six weeks or two months of feeding. During this latter period there is no feed on the farm as cheap as corn at the price and corn should be fed substantially to hogs in the finishing stages. The farmer need have no hesitation in feeding fifty-cent corn to hogs for which he can expect 6 cents a pound when fattened. They have been grown to some extent on grass, and he is as likely to make as much money feeding 50-cent corn to 6-cent hogs as in feeding 25-cent corn to 4-cent hogs. Where farmers are growing sorghum they can have a good deal of money by feeding it freely to hogs in connection with screenings or cheap wheat or rye.

Farmers should not by any means sacrifice their best brood sows. Each individual can very safely conclude that a large sacrifice will be made and that good brood sows will bring large money next spring if sold, and large profits if bred judiciously and kept over another year. The serious one, but it is not nearly so serious as many that all our readers have seen. The bright feature of it is the assured high price of hogs and the probability that they will be much less than this year than in the years past. A short corn crop usually means a small amount of corn in the hog sections.—Wallace's Farmer.

Durban Investigating.

Indianapolis, Ind., Oct. 6.—Among the letters that Gov. Durbin has received from persons protesting against the extension of W. S. Taylor and Chas. Finley, of Kentucky, are a number which charge that the referees could not get a fair trial because the system under which juries are impaneled in Kentucky enables the authorities to select a jury prejudicial in favor of or against the defendant as may be desired. It is charged that while the law on the face of it is fair it is unfair in practice and that Taylor and Finley, no matter how innocent of the crime with which they are charged, would certainly be convicted.

The representations have so impressed the Governor, he has sent an agent to Kentucky to investigate the methods of drawing and impaneling juries in that State, and has charged him to make the investigation thorough and report the facts fully as he finds them. The Governor's agent will keep him in the secret, and only the persons he consults in Kentucky will know what the investigations are for. It is said that the Governor's agent is a lawyer and well equipped for the mission he has undertaken to perform.

A Christmas Tragedy.

A reader of the Courier-Journal sends the following from the Courier-Journal about twenty years ago. Age has not spoiled the fine flavor of the story.
"Up in Clay county, once upon a time, a Christmas frolic ended in a tragedy," says the Richmond Register. Old Mrs. Pillipott was a widow. "Tell us about the fight," said the lawyer. "I never seed no fight," replied the old lady. "Well then, tell us what you did see," remarked the lawyer in a careless sort of way, thinking she knew nothing. Mrs. Pillipott moved her unbuttoned back, lit her pipe and proceeded. "Ow, Sewell, he give a Christmas dance, and me and a whole lot of others was there. The boys and girls got to dancing, and as the boys went dancin' round and round they got to slapin' each other, an' finally one boy he slapped another boy too hard—harder than he 'tend to—an' knocked him down. An' the boy what got knocked down he jumped up an' jerked out a great big knife, 'bout long as your arm, an' whacked the fellow that knocked him down right across the middle, from side to side. An' then the brother of the fellow that got out he pulled a British bulldog 'bout the size of a ham an' he let go his right arm at the fellow that had the knife, an' 'jest then Bill Smiley—Bill's a cousin of Jake Jakes what got shot—come runnin' out of old man Sewell's room with a double-barrel shotgun, an' let off both barrels into the crowd; an' old man Sewell, he got excited and jerked a W. H. Winchester rifle out from under the bed an' went to pump 'em into the throng; an' by 'bout the time the house was full o' smoke, an' 'fashin' 'an' 'holerin', an' I seed that was goin' to be a fight, an' I left the house."—Courier Journal.

The Ideal Master.

The Grand Master of Utah has this to say about the authority and desirable qualifications of a Worshipful Master:
"The ancient regulations have been bestowed upon the Master of a lodge the power of a king, and if he uses the power intelligently and zealously, the lodge and the craft, in general will be benefited by it. In my opinion the brother who occupies the oriental chair should be able to confer the degrees of Ancient Craft Masonry correctly, according to the standard adopted by the Grand Lodge; but he should also be versed in Masonic history, and capable of explaining to the brethren the meaning of the various symbols connected with these degrees. He should be familiar with the by-laws of his lodge, the laws of the Grand Lodge, and the general regulations of Masonry; and when presiding should enforce them."
"When the lodge is at labor he should insist that dignity and decorum are observed, and should not permit hilarity, heated discussions, or any debates by which the peace and harmony of the lodge might be destroyed. He should reconcile brethren among whom contentions exist. He should be firm in his rulings, not hasty and overbearing, but courteous. He should welcome visitors, and extend to them the warm hand of a brother Mason. He should always bear in mind that Masonry is labor, and that no Mason can attain any distinction among the Craftsmen as a faithful laborer and Masonic student. He should be prompt in attendance, and insist upon a like promptitude on the part of his fellow officers and all the brethren."
"The distressed and needy of his lodge should never apply to him in vain; his heart should always be warm, and he should ever bear in mind that the 'greatest of all is charity.' But above all he should be himself a perfect gentleman, moral, true and upright; in his private life he should be without reproach, and should ever depict himself so that his brethren can point to him with pride, and that his fellow-craftsmen must honor and respect him. A brother with these qualifications will be an ideal Master, brethren. Have you found such a Master? If you have, re-select him again and again, and no one else is to be selected to serve your lodge in the high and honorable station of Worshipful Master."

Penal for Treachery.

President Roosevelt's determination to impose a stiff and stern sentence on the Filipino insurgents in the island of Samar who recently massacred almost an entire company of the Ninth regular infantry is justified by the tragic facts in the case.

Surprising the American troops was accomplished purely by treachery. The condition of war did not exist in Samar. There was no enemy to be guarded against. Our soldiers were occupying the territory while the American civil government was being established. The natives had professed friendship for them and content with American rule. It is reasonably certain that the "amigos" thus professing friendship on day were the "insurrectors" who massacred the Americans the next.

It is imperative that an example be made of these Samar murderers. If this is not done, and thoroughly done, the fate which overtook Company C of the Ninth regulars, one of the best regiments in our service, will surely overtake other American soldiers in the Philippines. As it is, every loyal soldier in the Philippines is grieved over the great Filipino atrocity against American arms. They will be tremendously encouraged by the bloody feat of the Samar tribe. They must be promptly discouraged by the punishment inflicted upon that tribe.

It is announced from Washington that Gen. Chaffee will be instructed to begin a strenuous campaign in Samar. It is likely that Chaffee will do his full duty in the premises. Considerations of justice, as well as a proper regard for the prestige of American arms, demand this performance of duty. The American people will applaud the performance.

Came Near Dying.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I would surely die, and tried a dozen different medicines but all to no purpose. I went for a bottle of Chas. Finley's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so gratified that the first work I did on going to the office is to write to the manufacturers of this remedy and offer them my grateful thanks and say, 'God bless you and the splendid medicine you make.' This remedy is for sale by M. Craven."

Quarterly meeting of the M. E. Church South will be held at Cave Valley the 19th and 20th of this month.

The Goldman Woman.

Emma Goldman, from whom Col. Greaves says he received the impulse to murder the President, is about 35 years old, the daughter of a Russian tailor. Without education, she was brought up in a hotbed of anarchy, near Koenigsberg, in Russia.

She came to this country seventeen years ago and married a man by the name of Gruenewald, with whom she lived in Rochester. She deserted him after a year and a half and followed Louis Brandeis, an anarchist, to this city. Since then she has had many partners, disregard of the marriage tie being part of her doctrine.

Assuming the name of Goldman, she joined an anarchistic group known as the Pioneers of Liberty. Her language was so violent that they expelled her. She associated herself later with the German anarchists and wrote signed articles for "Die Freiheit," John Most's paper. She quarreled with Most, and on December 13, 1895, lashed him with a whip as he was about to speak in Odd Fellows' Hall.

Alexander Berkman, with whom she lived, shot Henry C. Frick at the Carnegie works. Both she and Berkman then joined the extreme wing of the anarchists. She made her living by speaking. She was arrested for inciting to riot in 1893 and served a year's term on Blackwell's Island. While there she began to study medicine and took a degree after her release. She left this city several months ago.

She speaks several languages, but her tirades are merely denunciations of capital and laws of society, without logic or argument.—New York Herald.

Lack of Uniformity.

The traveled Mason realizes how entirely diametric is the ceremonial ritualism of the symbolic lodges of the United States. There are no two jurisdictions at present using the same ritual, and so much do they differ that the "bright" worker in one State could not, and hardly would attempt to "help out" in the degree work of another State. That this should not be the condition all Masons agree, but none can point the remedy, because there is not, and probably never will be, a general governing body of symbolic Masonry in this country. Referring to this subject Past Grand Master Daniel McDonald, Chairman of the Committee on Correspondence of Indiana says, in his last annual report:

"Within the able precincts of the lodges we have found more difference in the ceremonial ritual than in almost any other department of the order. Almost every jurisdiction wants a ritual peculiar to itself, and very few Grand Lodges ever succeed in arranging a work that is satisfactory, and so committees on ritual, and Grand Lecturers, are continually tinkering with it, making it utterly impossible that uniformity will ever be reached. If there is anything that should be the same everywhere it is the ritual. The work in every jurisdiction should be the same, and every Mason should be made exactly the same. Judging from what we have been able to observe of the ceremonial in some jurisdictions, it would be difficult for one to determine whether he was in a Masonic, Old Fellows or Knights of Pythias Lodge."

The Yellow River.

The Yellow River is styled the "Sorrow of China." During the last century it has changed its course twenty-two times, and flows into the sea through a mouth 600 miles distant from that of 100 years ago. It is estimated that its floods in the present century have cost China 11,000,000 lives.

A Shocking Calamity.

"Lately befell a railroad laborer," writes Dr. A. Kellet, of Willford, Ark. "His foot was badly crushed, but Buckley's Arnica Salve quickly cured him. It is simply wonderful for Burns, Boils, Piles and skin eruptions. It's the world's cheapest healer. Give guaranteed. Sold by T. E. Paul."

Coroner,
LEONARD FLETCHER.
Superintendent,
JOHN W. FLOWERS.

The entire Democratic ticket for city offices of Nashville was in a walk.

There is talk that Yorkes will go into the Cabinet when the shake-up comes.

Hon. D. G. Nelson has been nominated by the Republicans to represent the Ninety-third district in the Kentucky Legislature.

Lorenzo Brock, the fifth President of the Mormon Church, died very suddenly at Salt Lake City, last Thursday. He was 87 years old.

The new President is sending out bids for votes—appointing some headed Democrats to office. That is all it means; nothing more.

Dr. Chas. A. Tatt, a negro, is making the race for the Legislature in the Fifth district, Louisville. It is said that he has quite a following.

After being actively in the service for forty years, Rear Admiral Schley went on the retired list last Wednesday. He is now sixty-two years of age.

The monthly crop report of the Commissioner of Agriculture shows a general improvement in crops in all parts of the State during September. The most marked advance was in tobacco. Late corn lost slightly.

Six men robbed the Harrodsburg post-office before day Saturday morning and made an attempt to enter the Mercer County National Bank, but were run off by two officers who opened fire upon them. The burglars returned the fire.

It is given out from Washington that President Roosevelt is very anxious to bring the warring Republican factions of Kentucky together. He takes the position that a house can not stand divided against itself, and may ask Ex-Gov. Bradley to assist him in bringing about a reconciliation.

Speaking about the importance of the coming election it is probably well worth while to note what will follow. A United States Senator, two Prison Commissioners and a State Librarian are to be elected. The new Legislature will be organized to reorganize the State into Congressional, judicial and legislative districts, hence the politicians are very much interested in the complexion of the next legislature. It is conceded that the House of Representatives will be Democratic by from 25 to 40 majority, while the Senate will be very close. There are 10 hold over Senators, seven Democrats and eleven Republicans. Harrel is a hold over, but it is not time to count him. He is a star performer and never acts until the boards are up.

Mr. Isaac A. Story, of Clinton county, is the Democratic candidate for the State Senate in this district, to be voted for at the November election. We publish his name in the Democratic ticket and commend him to the voters throughout the district as a gentleman worthy of their support and confidence. In the short time that remains between now and the election Mr. Story will be unable to see all the voters, but no Democrat should forget him on the day of the election. Mr. Story is well informed upon all the leading questions of the day, and should be selected as the State Senator from the county of Adair, Cumberland, Clinton, Russell and Wayne he will look after the interests of the whole people.

Some business men, in order to give their place a little extra notoriety, are responsible to a great extent for crime. At least their actions are very encouraging to men who are given to perpetrating crimes. Cole and Jim Younger, the notorious bank robbers and murderers, who were recently released from the Minnesota Penitentiary, are holding good jobs in Stillwater, and their services are in demand. They were in Columbia in 1872, robbed the bank and murdered the cashier, Mr. R. A. C. Martin. Such men should not be encouraged, but when they are put behind the walls for life there they should remain.

Up to last Saturday night ten jurors in the Caleb Powers case, now on trial at Georgetown, had been accepted by both sides. A special venire of seventy-five men from Bourbon county were to arrive early Monday morning from which to select the other two jurors. It is safe to say that at this writing the taking of testimony has commenced, and the case will now be pushed to a finish. Judge Cantrell will hold court day and night in order that there may not be a mistrial. Powers did not want to go into trial and his attorneys fought hard for a continuance.

President Roosevelt has purchased three horses, a landau, a brougham and a victoria. The carriage and horses are expected to arrive at the Capital this week. They were obtained in New York through the President's brother-in-law, Douglas Robinson. The saddle horses of himself and wife are already in Washington. The Government horses are used by the Secretary to the President and other White House officials. All the horses and carriages belonging to the late President have been sent back to Canton.

The South Carolina Inter-State and West Indian Exposition will be held in the city of Charleston from December 1, 1901, to June 1, 1902. Hon. M. H. Rhorer, of Middleborough, is the Commissioner from Kentucky, and to him we are indebted for a magazine showing the grounds, buildings, etc. There is not a more suitable place for a mid winter exposition than Charleston and the city will be visited by thousands and thousands of people.

The next Kentucky Legislature will be the most important one held for years. The State is to be redivided and a United States Senator is to be elected. From the knowledge we gather from papers all over the State the Democrats will have a majority in the Legislature and will, of course, elect the next Senate. There are four announced candidates for Senator, and Charley Brorston is pipping for majority.

WHAT THE CENSUS SHOWS.

Washington, Oct. 11.—The final census report on the population by sex, general nativity and color of the several States and territories, was issued today. This last bulletin of the series covers the entire country. It shows that the male number 80,069,243 and constitute 57.2 per cent. of the total population in 1900, while the females number 87,244,145. There is a slightly larger proportion of females now than ten years ago.

There is a difference in favor of males at the present census of 1,815,097 as compared with an excess of males for the equivalent area in 1890 of 1,593,870. There has been an increase in total population of 13,288,631, or 21 per cent. since 1890, made up of 6,744,170 males and 6,544,461 females, representing an increase in males of 20.9 per cent. and females of 21.1 per cent.

There are 65,848,802 native-born persons and 10,400,085 foreign-born persons, the latter element constituting 18.7 per cent. of the total population in 1900, against 14.8 per cent. ten years ago. The foreign born show an absolute increase during the decade of 1,151,994, while the native born have increased in ten years 12,981,987. As to color and race the population in 1900 is made up of 66,000,802 white persons and 9,812,585 colored persons, the latter figure comprising 8,840,789 persons of negro descent, 119,060 Chinese, 86,986 Japanese and 206,700 Indians. The corresponding figures for 1890 showed a total of 65,106,184 white persons, 7,488,798 persons of negro descent, 126,778 Chinese, 14,800 Japanese and 274,007 Indians.

The colored element constitutes 12.2 per cent. of the total population in 1900, as against 12.5 per cent. in 1890. The white population shows an increase since 1890 of 11,824,615, or 21.4 per cent., and the colored element as a whole of 1,400,018, or 17.8 per cent. There has been an increase during the past ten years in persons of negro descent of 1,852,001, or 18.1 per cent.

The native white element has increased 23.3 per cent., and the foreign whites only 12.2 per cent. Since 1890. The native white element of foreign parentage has increased relatively twice as fast as the native whites of native parentage.

The indications are that Hon. J. B. McCrory is far in the lead for United States Senator. There are four Democratic candidates and one of the four will succeed Dr. Deboe. While Mr. McCrory is the favorite at this time he should remember that a combination could knock him "higher than a kite," and there is always a disposition for the weak to combine against the strong. McCrory, however, has an eye to business and in all probability will be at the knocking.

The State Board of Valuation and Assessment has adopted a basis upon which the franchise valuation of the various life insurance companies doing business in Kentucky shall be determined. The decision will be contested by the attorneys for the companies, who will argue the matter before the board. The question as to whether the franchise law applies to the life insurance companies will be tested in the courts.

The monthly crop report of the Department of Agriculture shows that on October 1 the average condition of corn for the entire country was the lowest ever reported, being 52.1, as compared with 51.8 the mean of October averages for the past ten years. There was an improvement in the condition of tobacco during September, and on October 1 the condition was generally above the average.

The search by Ottoman troops for Miss Stone, the captured missionary, has been abandoned for fear she shall be killed. Arrangements are being made to pay the ransom demanded. A second appeal for money has been issued, as only half of the \$10,000 asked by the brigands has been snatched.

Mad Anna de Bar, who is now being tried in London, England, for inciting young girls to ruin, is a daughter of Prof. J. C. Solomon, a music teacher. She was born in Harrodsburg, Ky. She went to ruin early in life, and at this time has an international reputation for meanness.

Mrs. J. A. Witter, widow, living in Dayton Ohio, has been arrested, charged with murdering fourteen persons. The list includes four husbands, five children, one sister and four members of the different families. She has a man for a domestic helper. Probably a jury will now put a stop to her pastime by breaking her neck.

The trial of Caleb Powers, charged with being implicated in the plot to murder Senator Guebel, is now on at Georgetown. The defense made a desperate effort for a continuance, but all motions were overruled and the trial began last Thursday night. It is a three week's term and the whole of it will be taken up in trying the case.

The census report on the population of the United States by sex, nativity and color, shows that the male outnumbered the females by 1.2 per cent. During the last ten years the negro population has increased 18.1 per cent., and the foreign-born element has increased 12.4 per cent.

Rev. W. P. Gordon, of Columbia, spent one day here last week.

S. R. Walker and family, of Nell, visited the family of J. D. Walker Saturday night.

Remember next Saturday is the Teachers' Association here and all are expected to come up with their part of the work.

G. H. Nell was in Greensburg last week buying and shipping stock to the Louisville market.

H. A. Walker, sold a nice lot of cattle to J. P. Dohoney, of Case Valley, to be delivered in November at \$4.

Mr. Sam Lewis and son, of Columbia, were here last week buying produce from our merchants.

H. A. Walker, bought of Arthur Bradshaw and son, five head of cattle for \$140.

The woods have been full of candidates for the past week and both parties claim they will win.

Gradyville has not by any means got all of the rough riders. If you could have attended church at Union a night or so of last week you would have thought there are others added to the same.

G. T. Flowers and P. C. McCaffrey are attending the grand lodge at Louisville.

Mr. P. Corbin has a while in his house that is 112 years old. Mr. Corbin informed us that the good old book of books had been well preserved and that it contains four or five more writings than later versions. It has been handed down for generations.

W. M. Wilmore and daughter Miss Clara, accompanied by Mrs. Helen Wilmore, are in Louisville. They are buying a Fall stock of goods for the firm of Wilmore & Moss.

The series of meetings that is conducted by Mrs. Woolsey at Union church is progressing nicely. There have been several professions and the church and community greatly revived. The mist has been cleared away as to the reality of women occupying the Sacred desk. We verily believe there are souls that can be reached through their preaching that can not be otherwise. We bid them God speed wherever they go.

Stung By a Centipede.

Mrs. Thos. Saunders, Bluffton, Tex. was stung by a centipede. A doctor was sent for, but before he arrived some sensible friend sent a piece of brown paper with Morley's Wonderful Balm and applied it to the wound. The doctor and his services were not needed, for the poison was neutralized or killed by the Wonderful Balm. Mrs. S. did not suffer from the wound. Sold by agents every town.

PORT HILL.

M. L. Shepherd and Squire Hopper, Sr., attended the fiscal court at Jamestown.

J. Bryan Stone, C. A. H. Hammond and B. F. Lawless were on my midst Oct. 10th.

Born to the wife of S. B. Bexar, son, Oct. 8th, weight, 9 pounds.

W. S. Bexar went to Somerset on business Oct. 8.

M. R. Foley and a Mrs. Owens were united in the holy bonds of matrimony Oct. 10th.

Osteopathy.

Dr. A. C. Foster, a graduate of the Southern School of Osteopathy, is now located in Columbia for the practice of his profession. Osteopathy is comparatively new to this part of the State, but having been practiced in other parts of the United States for more than twenty years, I judge most every one has heard of its wonderful success with cases that heretofore have been incurable by other systems of healing. Osteopathy treats most all forms of chronic cases known to be curable, and some that were thought to be incurable before the days of Osteopathy. It has attained a most enviable reputation in the treatment of fevers, most especially typhoid. Osteopathy bears no relation whatever to Christian Science, Magnetic healing or faith cure, but is scientific, being based upon thorough knowledge of the principles of anatomy and physiology.

Those who are suffering with diseases from which they can get no relief by the use of drugs, would do well to investigate the possibilities of Osteopathy in the cure of disease.

Came Near Dying.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I would surely die, but tried a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely. I went to sleep and did not awake for eight hours. On awakening a few hours ago I felt so gratified that the first work I do on going to the office is to write to the manufacturers of this remedy and offer them my grateful thanks and say, 'God bless you and the splendid medicine you make.' This remedy is for a life by M. Craves.

Mr. N. S. Mercer and daughter, Miss Nellie, who have been visiting in Pellyton and other points in Texas, returned home last Saturday. Mr. Mercer is well pleased with Texas, says it is the finest country upon earth. Crops this year, however, are short. There is a little wheat, no oats, corn very scarce and cotton short. Notwithstanding all this the land is plenty to live upon and goods are cheaper in Texas than they are in Kentucky.

LOCAL JOTTINGS.

The fertilizers that have stood the test for years; that are the best and best growers and the best for the building up of land, are the Home-Steak, Globe and the Home-Steak. They have just a great deal of timber and are buying and getting out constantly.

We learn from Mr. George Suits that the stove business is as lively as it has been any time in the past. His company is dressing and edging as fast as possible and have shipped many thousand out of the country recently. They have just a great deal of timber and are buying and getting out constantly.

W. F. JEFFRIES & SON, Columbia, Ky.

Garnett Beauchamp, a nine year old son of Mr. and Mrs. John Beauchamp, of Edmonston, died last week. He was a victim of crop, and his father was in Louisville when the end came. He was a bright little boy and his death is a sad blow to his parents.

Invitations are out to the marriage of Mr. Robt. H. Bumsager to Miss Lula Thomas which will occur at the home of the bride Sunday, the 26th inst. The couple reside in the Cave Valley country and are quite popular with all the young people.

Egg, Laid and Ernest Woodriddle, two boys of Green county, quarreled over a base ball match. Life went to his home procured a shotgun and rifle and fired at Woodriddle, striking away one side of his face and destroying one eye. Life is in jail.

Presbytery at Greensburg voted to give an additional five hundred dollars to the M. & F. High School, this place. The action of Presbytery will have to be ratified by the Board of Aid. Prof. Granger thinks the Board will cut the amount, but will give \$500 or \$300.

Miss Alice Mudd, of Greensburg, a young lady well-known to many residents of Columbia, has brought a \$20.00 suit against Joseph and James Cantrell for killing her father, Wm. Mudd. The shooting occurred upon the streets of Greensburg about three months ago.

We learn from Mr. George Suits that the stove business is as lively as it has been any time in the past. His company is dressing and edging as fast as possible and have shipped many thousand out of the country recently. They have just a great deal of timber and are buying and getting out constantly.

Approaching Nuptials.

It is no longer a secret, and believing that the contracting parties are not averse to the information going to their numerous friends of town and those who are living in neighboring cities, we take pleasure in announcing the marriage of Mr. R. K. Young, a popular grocer of this place, to Miss Julia Smith, an accomplished and deserving daughter of Mrs. Julia Smith, who resides on Burdette street.

The ceremony will take place at the Presbyterian church, this city, Tuesday, October 22, 1901, at the noon hour, and the rites will be solemnized by Rev. T. F. Walton, pastor of the church.

The following young gentlemen have been selected as ushers: Curt McGee, Sellie Young, Henry Kemp, Frank Hill, Jo Coffey, Jr., and John N. Murrell, Jr. who lives on Mr. J. N. Murrell's farm, died with flux one day last week. Two other children have been down with the disease, but they are improving. Mr. Sullivan is a very poor man and this affliction falls heavily upon him.

An observer says that when a pretty girl puts a flower on a young man's coat the invariably lifts his chin up and looks at the girl. Judge Jones was in jail to tumble then he had better stay in doors when a funeral procession is passing, as he might get run over by the hearse.

The docket for the coming term of the Russell Circuit Court is about up to the average. Mr. T. B. Morrison, the vigilante sheriff, is up with his business as has been his custom ever since he has been in office. Judge Jones will organize the court in the forenoon next Monday and will give the afternoon to the candidates who will talk for votes.

A majority of the school teachers of Adair county were in Columbia last Saturday, being paid for their term. We had an opportunity of seeing the most of them and a finer body of young people could not be gotten together. The young ladies are especially attractive, intelligent, modest, the young men sober, gallant and industrious. Adair county is proud of her teachers.

Last Sunday we visited the cemetery and saw the grounds in excellent condition. It has recently been cleared off and all the head and foot stones that had fallen down are now replaced, showing that the citizens of Columbia have not forgotten their dead. Pots of flowers were in a number of lots and here and there roses were in full bloom.

A difficulty occurred last Sunday afternoon, near Millersburg, between Fred Barry and Luther Curry, resulting in the former getting his throat cut from ear to ear. A rumor was immediately dispelled by Dr. J. J. Bowker who arrived upon the scene in time to save Barry's life. It is not known here the cause of the trouble, but the suspicion that old man Aloloh was the prime mover. Alcohol like the foetus, dangerous to fool with.

Dr. West, of Nashville, Tenn., and Dr. J. H. Grady, of this place, met at the Maroon Hotel last Sunday afternoon and spent two or three hours very pleasantly talking over events of the war. They are both ex-Confederate soldiers and served under Gen. Joe. H. Morgan. They were not in the same regiment, but many incidents mentioned were familiar to them both, making their meeting exceedingly profitable.

Dr. Chillum and West, of Nashville, were very cordial in renewing the eye for Mr. Reuben Dunbar, Russell county. The operation was performed last Saturday, the doctors reaching Columbia on Sunday morning. They left their patient in the hands of the nurse and resting easy. Mr. Dunbar is 82 years old and has been a great sufferer for several years with his eyes. He is now totally blind but his general health is good.

A farmer, speaking of how much corn loses in the ear, says that it varies according to the condition of the grain when put in the crib. Crops have been known in which corn lost 20 per cent. from shrinkage, the grain being damp. From 8 to 12 per cent in the average, the shrinkage depending upon so many circumstances as to make an exact estimate very difficult, but the rule is to allow 10 per cent. From the above farmers can readily see that their corn should be perfectly dry when cribbed.

The following is from the Elizabethtown News, and we endorse every word of it: "Don't deal with the traveling seller of goods of any description. Stick to your home merchants. He contributes toward the upbuilding of your city, he backs every public enterprise that will add to the value of your property. Never mind the honeyed words of city traffickers. Their prices are no lower than home dealers and the quality of goods are inferior to those found in home stores. Don't deal with unknown and unreliable peddlers that swing between points and stop at no place. Don't be a chump."

People of Russell are living in anticipation of the county developing into great oil fields. A company is now boring at or near Oreopolis and should oil be found wells will be put down all over the county. While boring has not commenced in Adair county there is no less interest, many believing that oil can be found here in paying quantities. Oil has been found in Adair at several different places in small lots, and it is generally believed that gushers could have been struck if the drilling had been deeper. The company that holds nearly all the lease in this county state they will begin work here during the coming year.

Considerable frost here yesterday morning.

The election comes on the 5th of November.

Coffey Bros. have bought ten horses in the last few days, ranging in price from \$60.00 to \$100.00. They sold to Mackie & Brown, Lebanon, two nice harness horses for \$300. They also sold A. Huns a middle horse for \$115.

Hops have been steadily on the decline for the past week. In the Louisville and Cincinnati markets they have dropped from 75 to 65. Cattle remain about the same as last week, \$4.75 to \$5.00 for choice shipping; light calves \$4.50 to \$4.65.

An infant child of Mr. Matthew Sullivan, who lives on Mr. J. N. Murrell's farm, died with flux one day last week. Two other children have been down with the disease, but they are improving. Mr. Sullivan is a very poor man and this affliction falls heavily upon him.

A company is now boring at or near Oreopolis and should oil be found wells will be put down all over the county. While boring has not commenced in Adair county there is no less interest, many believing that oil can be found here in paying quantities. Oil has been found in Adair at several different places in small lots, and it is generally believed that gushers could have been struck if the drilling had been deeper. The company that holds nearly all the lease in this county state they will begin work here during the coming year.

People of Russell are living in anticipation of the county developing into great oil fields. J. W. Hunt, Sheriff.

There are various ways of courting girls and some young men have tried them all, never at any time reaching the suburbs of the girls' affections. A married gentleman, one who tried all of these to ingratiate into good graces, says the most effective way is this: If you love a girl occasionally give her a rest, do not see her too often and if you do see her take up time to topics and discuss them. Give her to understand in a sensible way that she is the one altogether lovelier to you, and not least, let her know that your affection is on the drag. Get her perfectly interested in what you are saying, then bid her good night. She will be sure to wait to see you when you call again.

Columbia is fast spreading out and it is very evident new streets will have to be opened. There are a number of lots that could be readily sold were they so. For years nearly all the building has been upon the four principal streets, but the lots along these avenues have all been taken, and residences are now going up on the back streets. Several of these avenues could be made desirable streets upon which to live if they could be made wider, and there are a few that could be extended in width if property holders would sell off strips to the town. The town is growing and something will have to be done.

There will be preaching next Sunday at the following places: T. F. Walton, Ebenezer; W. S. Dodge, Pike schoolhouse; Z. T. Williams, Creelsboro; W. C. Sandig, Union; F. C. Shearer, Mt. Pleasant; J. B. Beach, Price's creek; T. Buffaker, Pleasant Hill; W. P. Gordon, Cave Valley; T. L. Hulst, Pellyton; W. B. Cave, this city.

What You Like.

When you take Morley's Liver and Kidney Cure, for those, dyspepsia, indigestion, headache, foot, breath, distention and the long train of similar troubles will disappear and your cleaned and awakened system will demand food. Sound digestion and sound appetite go together, and both follow the use of this time tried remedy. Ask your druggist.

TENNESSEE RIDGE.

Democracy is on the boom.

Ed Mitchell has left for Illinois. Mr. May was elected Senator trustee in the Barnett's Creek district.

Ray Hurt reports that he has accepted a position with a Louisville grocery house.

Postmaster Beard has returned from Louisville much improved in health. Revs. Austin and Cooper, two pioneer ministers, were visiting in this section last week.

Roy and Coy, twin sons of Mr. Jas. Martin are improving. They are the finest pair of twin Democratic boys in the county.

Barnett's Creek School will organize a literary society next Saturday night. Messrs. Conover and Miller were in this part of the country with a small search light week.

Messrs. J. P. Doherty, Sr., candidate for County Judge, and S. H. Mitchell for jailer were in this neck of the woods a few days ago, looking after their interests. We can't imagine what "Str." after Mr. Doherty's name stands for unless it is search with a big S. If it does it is very appropriate, as he is a great searcher for votes, but he doesn't need a search warrant to find them.
